Great Clearing of Silk Vests

This week those that sold for \$2.00 and \$1.50 going \$1.35 and 95c.

A clearing of large size Brassieres. These were \$1.50 and \$1.95, at 75c and 95c—sizes 40, 42, 44, 46.

Don't overlook these pure Silk Hose at \$1.19, with run-proof tops.

MRS. THERIAULT

Elks Are Preparing For Big July 2nd

With the program completed details of which appear in another column, it will be evident to all that Champion is going to have a real day on July 2nd. A large dancing pavilion is being erected on the grounds and the carnival events will be held there. There will be some 12 booths in operation. When three baseball games, horse races, bucking contests, and a big program of athletic sports are crowded into one day there should not be an idle moment. When the carnival and out-door dance are added to this there should be a very full day for everyone. The local Elks' Lodge is in charge of the day and are making every effort to make it an outstanding event of its kind. They will make no mistake in coming to Champion on July 2nd.

Everyone in Champion and vicinity who can undertake the decoration of a float or car is earnestly requested to do so in order to make this feature of the program a success to be proud of. An error on the bill caused the omission of the prices for decorated cars which are \$10.00 and \$5.00 for first and second, respectively, while floats are \$25.00 and \$10.00. A general effort in car decoration, especially, would not require too much effort on the part of the owner and would assist largely in the success of the pageant.

There has always been more or less of a Doubting Thomas minority in regard to the willow "Water Witch." Mrs. W. B. McRae was strong in disbelief, but recently, while locating a suitable place for a well, she took the willow in her hands and at a certain point it developed a tendency to turn down so pronounced a character there was no possibility of ignoring it. In the drilling operation which followed the action of the willow was completely justified by a wonderful flow of good water at a depth of 80 feet. Mrs. McRae is now being urged to put out a shingle and take up the profession of water finder.

E. Siler, Champion's leading baseball product, has been making history recently playing for Clarendon. In the Brewery Cup competition he pitched Clarendon to an 8-2 victory and last Friday at Staveland blanked the home team to the tune of 1-0. Residents of this district naturally take pride in his achievements and will wish him continued success during the season.

Sunday's rain puts the question of moisture for this year's crop in a very promising condition. It was a soaker of a kind that leaves but little to be desired for a considerable time. While last year's crop may not be equalled in the number of bushels it may easily be a more valuable crop if harvesting weather is satisfactory.

The railways commission has decided that \$0.75 freight per ton on coal shipped to Ontario shall include all switching charges between the two railways, so that now there should be no reason why the experimental shipments should not be completed.

It seems a little early for hail storms but the Ensign district was visited recently by a storm which did more or less damage to some 5,000 acres, while in the vicinity of Indian Head, Sask., a severe storm is reported as having been the cause of considerable damage over quite an extensive area.

Vancouver is conducting an extended inquiry into police activities for the past year or two. From this distance it looks very much as though the investigation did not come any too soon.

Tournament of Carmangay

A baseball tournament in which teams from Nanton, Vulcan, Champion and Nobleford will take part will be held in Carmangay on Wednesday, June 27th, beginning at 1:30 sharp. In addition to the baseball there will be a dance in the evening for which the famous Melody Queens will furnish the music. As all these teams have been strengthened considerably recently some real ball games may be anticipated.

W.I. To Entertain

The Champion Branch of Women's Institute is giving a social afternoon on Tuesday, June 26th, at Campbell's Hall, to which all ladies of the community are invited, whether members or not. Progressive whist will furnish entertainment; if one does not care for the game, bring fancy work and enjoy an hour or two in social chat. Cards will start promptly at 3:00 o'clock, door charge 50 cents. Refreshments. Hostesses for the afternoon are the members of the Advisory Board and include: Mrs. J. N. Beaubier, Mrs. E. G. Millin, Mrs. D. Watkins, Mrs. Dean Smith, Mrs. R. S. Bond, Mrs. W. Ulrich, Mrs. F. Wise, Mrs. G. Dow and Mrs. Bastin.

A special Commencement Service for the Consolidated School, to mark the close of the year's work will be held in the United Church on Sunday evening, June 24th at 7:30. The members of the last executive of the literary society, with others will take part in the service. Everyone is heartily invited to attend.

MISS A. EARTHART IS FIRST WOMAN TO FLY ATLANTIC; WALES, LANDS, BURRYPORT, WALES—BRITISH IRISH SUICIDED WHEN "FRIEND SHIP" DROPS INTO BURRY ESTUARY OFF WALES, HAVING JUMPED FROM TREPASSEY, NEW-FOUNDLAND, IN 20 HOURS AND 49 MINUTES

London, June 18.—The first airplane crossing of the Atlantic ocean by a woman has been accomplished. The hydro-airplane "Friendship," carrying Miss Amelia Earhart, Wilmer Stultz and Louis Gordon, was reported in a press association dispatch to have landed in Burrysum off Burryport, Wales, at 12:40 p. m. (6:40 a. m. eastern standard time). The big pontoon-equipped Fokker airplane had been sighted 70 miles southeast of Cobh, Ireland, by the United States steamship "America."

The first definite message from the "Friendship" that she had succeeded in crossing the Atlantic came this morning from Captain George Frier, commander of the steamer America, who definitely identified the plane by its number.

Captain Frier sent the message to the London office of the Associated Press. The message read: "Seventy-five miles southeast of Quebec (Cobh), the seaplane Friendship NX-4204 circled overhead and attempted to drop two notes on board but was not successful. The plane then flew north." (Signed) "Frier."

NX-4204 is the number on the rudder of the trans-Atlantic plane Friendship.

Fuel Ran Short
Burryport, Wales, June 18.—Bad weather and heavy mist accompanied the Friendship for the greater part of her journey, while rain was almost incessant. Pilot Wilmer Stultz told the Associated Press correspondent:

"As you know," he said, "we jumped off from Newfoundland at 9:51 o'clock yesterday morning and intended landing in England. However, lack of fuel forced our hand and we had to look for a landing place elsewhere."

Stultz was in the best of spirits and immediately went off to the telephone to give news of our arrival of the Friendship and to secure fresh supplies of gasoline.

He said it was the intention of the crew to proceed to Bristol, which was their destination, as soon as possible.

NOTES AND COMMENT.

Under the auspices of the Elks' Lodge and the cooperation of the community, Champion is putting on a first of July celebration, which will naturally be held on Monday, July 2. An unusual effort is being made to make this a real success and it is to be hoped the public will turn out and give their loyal support to this event. The prizes offered are unusually good and a special effort is progressing to see that every detail of the entertainment to be offered is of special merit. Any receipts in excess of expenditure will go to the community fund, so that those contributing to the success of the day will be helping a highly deserving utility long needed here. There will undoubtedly be many here from outside points to whom the disposition of any excess funds will be a matter of indifference, but the people living in the vicinity have a special reason to take part in and otherwise support the event.

The almost frenzied speculation in stocks which has featured the exchanges for some time past has been giving rise to warnings against the continued tying up of money needed in other channels in a boom which is almost bound to burst in the relatively near future. Trading on the exchanges has reached an unprecedented volume recently, and while prices have been checked at times an upward trend has been maintained with the result that financial experts view the situation with alarm. Up to the present, however, all efforts to check speculative buying have been ignored.

While the nomination of Herbert Hoover as republican candidate for president was almost a foregone conclusion before the actual vote was taken and he is undoubtedly the strongest candidate available and his nomination is generally popular, there was a dissenting vote from the farm bloc which will have to be reckoned with later. Big interests have a very dominating position in United States affairs and the nominee of either of the old parties cannot get away from this influence, which furnishes the sinews of war. The farm vote, however, promises to be an increasingly influential element in the elections which follow nominations.

The work being done by the council this year to improve the condition of the village streets must meet with general approval. While we have not a gravelled road to connect up with at the bounds of the town corporation farmers from the district will undoubtedly appreciate the continued effort to make the streets passable in the wet weather which seems to have become a regular and not inconsiderable part of our weather conditions. One needs only to drive through adjoining towns on this line of railway or on the highway from Calgary to Macleod to realize the futility of building good roads if the incorporated villages and towns do not fill in the gaps within their limits. A chain is only as strong as its weakest link, and there are some mighty weak links within the incorporated points.

The following from an article on "Weed Control in Alberta" written by Clyde C. Gilles of Strathcona will convey a partial idea of just how expensive weeds are becoming to this province. The average man may not accept the figures in their entirety

but must acknowledge they are appalling even if cut in two. "Anyone who has made only a passing study of the subject realizes that the control of noxious weeds is one of, if not the most, serious problems facing the province of Alberta today. To say there is no menace from weeds, to say that everything is being done that

can be done, would be misleading and far from the truth. We have always had weeds and possibly always will have them but the damage they do is to a great extent controllable and by a united effort on the part of Federal and Provincial Governments, Municipalities, and individuals there is no doubt but that the situation can be met and the loss reduced to a minimum. The estimated loss due to noxious weeds in Alberta in 1927 was put at \$18,000,000 by the Field Crops Commissioner. Were the total losses for the whole Dominion put in figures, the amount would probably exceed \$100,000,000. The annual loss from forest fires over which we show so much concern, pales into insignificance when compared with these ap-

palling losses due to weeds. The loss due to forest fires in 1927 was estimated to be less than \$1,700,000."

So many fires are failing to take off, reaching their objective or getting into trouble on the way that it is rather difficult to keep track of them all.

The Power of The Pool

Lies in Volume Control

The Canadian Wheat Pool Now Handles ONE FOURTH of the World's Exportable Wheat Surplus.

The Wheat Pool has given ample evidence of its usefulness to wheat growers since last harvest. Faced with the handling of a damaged crop and with a large increase in world production, the Pool has been successful to a considerable degree in preventing disastrous slumps. Every wheat farmer in Western Canada owes a debt of gratitude to the Wheat Pool.

The power of the Pool lies in its control of volume. Every bushel placed in the Pool means greater strength. The organization needs YOUR assistance.

The ideal of co-operation is working together for the common good. It is opposed to any system that makes a profit on the result of the labors of the producer. Its operations mean more wealth for all the producers.

Co-operation is not only a sentiment but an economic necessity. Let the hearts and minds of our farmers become enthused with its ideals and there is hope for the economic future of agriculture.

You who have not signed the Second Series Wheat Pool Contract gain nothing by delay. You only endanger the welfare of an organization that has proven the best friend the farmer has ever had.

Local and General

A very warm dry May has been followed by a cool and very wet June. The combination, while peculiar in some ways, seems to promise another crop.

K. R. McLean, R. O. Sight Specialist, 212 Herald Bldg., Calgary, will make his monthly professional visit to Champion at the Drug Store, Friday, June 29th.

Frank Lobban was in town this week. He is now representing the Ford company on the road in connection with the new Ford cars. He renewed acquaintance with many friends while here.

Some 300 head of Alberta cattle, comprising the first shipment of live cattle to leave Canada for over a year for Great Britain, were loaded on board the S.S. Manchester at Montreal on Thursday last, having been shipped direct from Calgary.

There is great activity in preparations for the July 2nd celebration. Most of the active workers are of the horned variety, but if there are any tails on the job they are well concealed.

The continued rains have made the roads about as bad as they could be in every direction. The new grades are particularly soft. Considerable traffic from the country continues to move in spite of these conditions, however.

Examinations have been in progress in the school during the week which will account for the many "brows all furrowed and wrinkled with care" among the students, and the jaunty free-from-care attitude of the teachers.

Clark Rhodes and family will occupy **G. M. Campbell's** residence during the latter's absence on a holiday trip to California.

Be ready for a big day July 2nd.

Combines promise to be a very big factor in the harvesting of this year's crop, to judge by the number of orders reported by the machine men.

A prominent farmer in this vicinity has a problem on hand which should be of interest to all hog raisers in the vicinity. He has a bunch of hogs which he wishes to market when they weigh exactly 200 lbs. each. What size of a hole must be cut in the wall of his pen in order that the hogs may just crawl through? There should be many answers to such a query. Who will be first with a solution?

Contracts have been awarded during the past week by the Department of Public Works for two sections of highway in the southern part of the Province. The contracts call for standard highway construction of the 25 miles from Lethbridge to Macleod, and the 30 miles between Macleod and Pincher. Tenders will be called for within a few days on

another section of road between Stirling and Lethbridge, which will practically complete the season's program in the south of the province with the exception of a number of short links connecting up various sections of the main highways. Construction work is also expected to start shortly on the Wetaskiwin-Camrose road, 28 miles in length, following the route laid out by the Department of Public Works.

POULTRY BREEDING—THE X-RAY, REGISTRATION AND R. O. P.

"New and improved species of chicken will in the near future, according to Dr. W. H. Doffenbach of the Flower Hospital, New York, be produced by the treatment of fertile eggs with the X-ray." He claims to have produced a definite deviation from the normal sex ratio in the chickens hatched from X-ray eggs, this resulting in a greater percentage of female chicks.

This is quoted from a New York despatch without comment, but it necessarily reminds us of Canada's two great poultry breeding policies via, Registration and Record of Performance.

Canada is the only country ad-

mitting the hen to National Live Stock Records. This is done through the Registration policy, and consists of the making of official qualifying records under Government supervision through the medium of Egg Laying Contests conducted on the Dominion Experimental Farms.

The qualifying records under the Record of Performance policy are made on the breeder's own plant, which is under constant government inspection. The policy is administered by the Dominion Live Stock Branch.

Both policies are to encourage pedigree breeding of poultry for production, and to originate a source of supply of male birds of known ancestry. The use of such males will be one of the great factors in Canadian poultry development, increasing as it must the

average flock production, and as a result increasing the revenue, and making even more profitable an already prosperous industry. Pedigree breeding is the surest, safest, and easiest way to develop the poultry industry.

W. M. ADAMS

Today

NASH presents a New and Finer Motor Car

New Twin Ignition Motor New Salon Bodies

"The three new Nash Series, which are being introduced everywhere today, achieve the ambition of my manufacturing career.

"They represent an entirely new type of motor car, priced moderately, but offering you all the beauty and quality and performance heretofore exclusive to very expensive automobiles.

"To create such a car we had to develop an entirely new type of design and invest over \$2,500,000 in dies and machinery alone.

"Both the Salon bodies and the high compression motors which power these new models exemplify the most radically modern advancement in body craftsmanship and engineering.

"Naturally space precludes the full listing of all features but I do want to draw your attention to a number of the outstanding attractions such as—

"—Twin ignition, high compression, Bohlnalite aluminum alloy pistons

with Invar-struts, 7-bearing crankshaft with hollowed crankpins, Bijur centralized chassis lubrication, Houdaille and Lovejoy shock absorbers, Bifflex-Nash bumpers and bumperettes, chrome plating over nickel for all exterior metal ware, double-drop frame, one-piece Salon fenders and longer wheelbase lengths.

"This new-type engineering of the '400' motors makes them by far the best performing cars I have ever built.

"I don't think anyone will ever want to use all the speed and power they deliver.

"Equipment is absolutely complete at the factory list price and you need buy no extras except a spare tire.

"If my judgment is worth anything you will find it well worth while today to examine this new automobile development with the greatest care."

C. W. Nash

President, The Nash Motors Company

A. W. JOPLING, Dealer, Champion, Alta.

"Safety First" on the Highways

The phenomenal growth in the number of motor driven vehicles on the highways of this continent constitutes one of the most amazing developments of modern times. The motor car has, in fact, completely revolutionized modes of living in the space of a few years, and, equally so, has ushered in an entirely new era in the history of transportation.

It is not necessary to even enumerate the many changes which the general use of the motor car has brought about. These changes are patent to everyone. The result has been, of course, to likewise create entirely new problems which did not confront, and were never dreamed of, by the people of a couple of generations ago.

The motor car has forced governments and municipalities to completely re-organize plans and the work of building because what was regarded as an excellent road for horse drawn buggies and wagons is quite obsolete in these days of motor traffic. The result has been to compel huge expenditures upon all governmental authorities, not only in the construction of a much higher standard of road, but in annual maintenance charges in order that such roads shall be kept up to that high standard, and shall be available for use at all times in all weathers.

In large cities, the multiplicity of cars has created congestion and traffic problems of the most difficult kind, and the number, power and speed of modern cars not only an hourly danger to each other and their occupants but to all pedestrians. Laws governing rates of speed, laws prohibitive of glaring headlights at night, and innumerable rules of the road in an effort to regulate this enormous and ever increasing traffic, have been passed. Many of these enactments were experimental and found ineffective. Amendments to laws have followed amendments in rapid succession, yet the toll of accidents and violent death mounts steadily higher and higher.

The fact might as well be faced—it must be faced,—that only through the practice of the principle of "Safety First" by the people themselves can all the people—only they—really control this modern juggernaut which the inventive genius of this generation has brought into being and to such a high state of power and efficiency.

Legislative enactments and arrests and fines for violation of these laws will not, and can not meet the existing problems. Public sentiment and the public conscience must be aroused against those who habitually and wilfully disregard the laws and regulations passed in the interests of all people. The speed maniac, the man who persists in flashing blinding headlights in the eyes of all other car drivers, the crank who considers it an insult and a reflection upon himself and his car to allow any other car to pass him on the road, the crazy fool who not only disregards all safety precautions for himself but who is callously indifferent to the fate of others, and the common "roadhog" who ignores everybody's rights and selfishly arrogates whatever he desires to himself—all these enemies to the welfare, enjoyment, rights, and even lives of others, must become taboo throughout the land and be ostracized by his fellow citizens in the community.

Every driver of a car should keep constantly in mind that it is a powerful machine he has in his control, and that the safe way is the sane way. Common sense will prevent accidents. Apply it. There is not only a law but an etiquette of the road. Observe it. Protect person and property—your own and the other fellow's.

Two controllable factors enter into accident prevention on the streets and highways—your car; yourself. Always observe, among others, the following simple rules for safety:

1. Keep your car right; see that the brakes, steering gear and headlights are in perfect working order.
2. Keep your eye on the road and your hands on the wheel.
3. In passing traffic, look ahead.
4. If a "roadhog" comes too close to you—let him.
5. Entering main streets and highways—stop and listen.
6. Don't rush through nor "loaf" in heavy traffic.
7. Signal before you slow down, stop or change your course.
8. Look before you "step" signal.
9. Obey the "Stop" signal.
10. Watch your "Right"—Don't "step" on the gas, the train will win.

Continues Best Seller

Norse Celebration in Winnipeg

Over Ten Million Copies Of Bible Sold Last Year

The Bible continued to be the world's best selling book in 1927, establishing a new record of 10,634,797 copies, says the annual report of the American Bible Society.

Copies were published last year in 156 different languages and dialects and the first complete Bible in the Luba-Luba language of the 2,500,000 Hamitic natives of the Belgian Congo was issued by the Society.

There are 150 convicts serving life terms in prisons of Canada.

GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

"Toronto, Ont.—I began taking Vegetable Compound for nerves and stomach trouble. I must say I felt different after the first dose. I have been told this last six months that I look twenty-five, although I am now forty-seven and had severe nervous children. I have taken the Vegetable Compound regularly for some time and feel healthy and young."—Mrs. McKee, 15 Laurier Ave., Toronto, Ontario.

SEA STRAIGHTENS ROMANTIC TANGLES

When May Christie, whose novels and articles are read all over the North American Continent, reaches an impasse with characters in her novels, she "sends them on an Atlantic voyage," to use her own words, because their tangles are unraveled on the ocean. Miss Christie, now married to J. S. Mazzarini, New York broker, is shown here on the White Star liner Mergan, leaving for England after spending a month in the North American Continent, in which she wrote two 78,000 word novels and forty-five articles.

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When the Blood Is Enriched

The most urgent need of all who suffer from any form of indigestion is to enrich the blood. Pain and distress after eating is the way the blood is enriched. It is to be desired the power of digesting the food it takes. New strength is given to weak stomachs by Dr. Williams' Pink Pills because they purify and enrich the blood. It is to be desired the speedy relief in stomach disorders that follows the use of this medicine. The value of this medicine in cases of indigestion is shown by the case of Mrs. George W. Johnson, Lequille, N.S., who says: "I have no hesitation in recommending Dr. Williams' Pink Pills. I was greatly distressed with indigestion and after eating I suffered from pains in the stomach and a bad taste in my mouth. I tried different remedies but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills which I readily did, and I am feeling very grateful to the person who gave me the advice. The very first box helped me and before I had taken a half dozen I was restored to my former good health and all traces of this distressing trouble disappeared. It is now about a year since I took the pills and I have not been troubled with indigestion since. I have taken every box of Dr. Williams' Pink Pills to those in need of a medicine and shall continue to do so. It is a little booklet, 'What To Eat and How To Eat' will be sent free on one asking for it. You can get the pills from any medicine dealer or by mail at six a box from The Dr. Williams' Medicine Co., Brockville, Ont."

British Columbia Hoop Yield

Yield For 1927 Double That Of The Year Previous

A total yield of 1,425,870 pounds of hops was secured from 1,957 acres in British Columbia in 1927. This was practically double the 1926 average, substantially the largest yield in the history of the industry. At an average price of 22 cents per pound the crop was worth \$456,280. In 1928 an additional 332 acres of hops in the province came into bearing.

Pretty Cashier: "I think I need a holiday for the sake of my health. My beauty is beginning to fade."

Manager: "What has put that idea into your head?"

Pretty Cashier: "The men are beginning to count their change."

The gross area of the United States is 3,626,789 miles.

Druggist Gave Her

Very Good Advice

Miss Ruth Hunsberr, Mrs. N. Y. writes: "Having been troubled with indigestion caused by consumption for several months, my druggist advised a purely vegetable laxative pill."

"I can testify that since I am taking them, and only one each night, I feel like myself again and can eat and sleep without fear of an attack."

The Standard of Quality Since 1853

University of Alberta

New Laboratory and Greenhouse To Be Erected This Year

Increased accommodation is being provided this year in the department of field crops at the University of Alberta by the erection of a new laboratory and greenhouse for the study of plant pathology and plant breeding. This additional space will make possible the carrying out of a co-operative attack by the university, the federal department of agriculture, and the national research council on the problem of root-rot diseases.

Dr. A. W. Henry, formerly of the University of Minnesota, on his return from Europe last fall, joined the staff of the department of field crops and will lead the plant pathological work at the university. Dr. G. B. Sanford, of the federal division of botany, will have charge of the Dominion laboratory of plant pathology, and Dr. O. S. Aamodt, of the University of Minnesota, has been appointed to take charge of the work in plant pathology. Dr. Aamodt will spend the summer in Europe, mainly at Cambridge and will take up his work at the university in the fall. Professor J. R. Fryer will continue in charge of forage crop breeding. Disease resistance is one of the main qualities being sought in the plant breeding work.

Newest Town in Northland

Crabtree Portage, Manitoba, Important Port On The Flin Flon Railway

Crabtree Portage, which sprang into being almost overnight, is the North Country's newest town, and citizens believe it is destined to be one of the most important points on the Flin Flon Railway.

A month ago there was nothing there except railway construction offices and warehouses. Today it has a population of 100 with a hotel and a number of other thriving business establishments. A board of trade is being organized and soon there will be a mayor and regular municipal organization.

Within a mile of the town work is going forward on a number of mining claims.

Trained Fire Fighters For British Columbia

Experts Will Combat Fire Menace In Salmon Arm Section

When the fire menace again sweeps through the forests of the Salmon Arm section of British Columbia this summer, it will be combated by men trained for just that emergency. The fire-fighting will be done by experts and not by novices.

The reason for that is that the men who will be employed in fire-fighting this season have literally gone to school again and have studied the most approved methods of reducing the hazard and beating the flames when they once get under way. Special subjects were taken up each day and included the study and demonstration of approved methods of disposal of slashings.

Ship Muskarak To Europe

What is believed to be the first for muskarak shipments from Canada has left on board the Canadian Pacific vessel "Beaverdale," bound for Antwerp. It consists of 140 muskaraks, the foundation stock for muskarak ranches in Germany, Finland and France. The consignment was made up of 74 pairs and operated at a muskarak farm at Lindsay, Ontario.

For Burns and Scalds—Dr. Thomas' Electric Oil Will Take the Fire

A good clock is one that has been wound up, a good concern is one that hasn't been.

For Hay Fever—use Minard's

Victim Of His Invention

Radium Paint, Inventor Is Slowly Dying Of Poison

The New York Times says that Dr. S. A. Von Sooschek, inventor of the radium paint, which is said to have doomed five New Jersey women to a slow death, is a victim of his own invention. The paper says that, although the doctor was reticent to talk about himself, marks of the inroads of illness were plainly evident. His front teeth are gone and his fingers up to the second knuckle are black, the result of radium necrosis.

Dr. Von Sooschek brought to this country with him several years ago the formula for the radium paint. He became an official of the U.S. Radium Corporation in whose laboratory five New Jersey women are said to have acquired the radium poison. They recently made a settlement with the company for \$10,000 each, a life-time annuity of \$500 each and insurance for their relatives when they die.

Recipes For This Week

(By Betty Barclay)

ECONOMICAL FUDGING

- 1 quart water.
- 1 teaspoon salt.
- 1 cup pearl tapioca.
- 3 teaspoons vanilla.
- 4 tablespoons butter.

1 1/2 cups brown sugar.

Cook tapioca in water until transparent. Add other ingredients. Bake one-half hour.

LEMON DROP COOKIES

- 1-3 cup butter.
- 1 egg.
- 1 egg.
- 1 teaspoon soda.
- 2 tablespoons hot water.
- 1 tablespoon lemon juice.
- Grated rind 1 lemon.
- 1/2 cup flour.

Cream butter, add sugar, gradually, and egg, beaten until thick and stiff, soda, dissolved in hot water, lemon juice, grated rind and, and flour. Mix well, drop from tip of teaspoon onto buttered baking sheet, and bake in a quick oven.

To make crisp cookies, use one and one-half cups flour when mixing; chill thoroughly, roll very thin, sprinkle lightly with sugar, cut out, and bake.

20,000 passengers have been carried by one commercial airplane company, without a single accident.

Much of the experience a man gets comes too late to benefit him.

NO NEED FOR STOUTNESS

MAIGRIN is the correct method of reducing fat, cellulite, and other undesirable features. It does not contain THYROID or any other substance that would harm the body. It is a purely vegetable product. Price \$1 per box or 10 boxes for \$10.00.

CHAPTER XXVI—Continued

Mrs. Kallinski looked very smart in her black satin tea-gown and gold embroidery that she had brought from the store. She took her neighbour into her confidence. "No matter what I say, mind you! The woman said she paid seventy dollars for it, once, and lay it got for fifteen. She wanted thirty, but I told her it was the worst thing I saw. Who was wearing tea-gowns now?—they was out of date like leg o' mutton sleeves. And all the time I was thinking of me. I had a red cashmere one with Watteau panels when our Rachel was comin', and his papa says little Isaac will be served so good, even if it did cost fifteen dollars and could be sold for thirty say. He's that good a man, and spares no expense in his dress."

Mrs. Corbett turned the tea from the kitchen and filled the cups. "You and me are lucky women," she said. "To have two good men like we have. Ain't none of them easy going divils, though? I don't know what to think of Helmi's man, though she sticks up for him. He's a real been to a storm or drowned in a river. Poor girl—it's a shame to see her havin' to work in a Chinna, but what could the poor girl do? Not one of these dainty ladies would have her, they all had some reason."

"If she was just a Hebrew girl, now," said Mrs. Kallinski, "she could go to the Hebrew Association of Women and they would find a place for her. We would not have any nice white girls of our service in a Chinese shop and have to take lipity talk from every Harry, Tom, Dick, and maybe worse. Mrs. Sternberg and Mrs. Schwartz are grand on that, and

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude lyes. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For the last thirty years its invention it has remained standard with physicians. You will find nothing so quick in its effect, so harmless, so efficient.

good girls they have found for our people."

Mrs. Corbett passed, with her snicker half way to her mouth. "Look at that now! Ain't the Jews wonderful to think of things? We've got grass societies, too, and I never even took thought of them. Sure we've got societies. They're all up to their eyes in pneumonia jackets and many-tailed handkerchiefs, and socks for the soldiers, but they're grand women, too. When I came here first I used to take care of the Club at the 'Y' and I used to see them there, millin' round, very civil spoken women, and tryin' to make the world better, and good knowers in their heads. I'll go to Mrs. Bell, the old lady, and I'm glad you spoke of this, Mrs. Kallinski. Maybe we can get a decent place yet for Helmi, though I don't think I'll do with Rose and Dan."

Mrs. Corbett went that evening, after Helmi had gone to work, leaving the baby to the watchful care of Rose, who sat in No. 18 to do her housework.

Mrs. Bell was at home, and would speak of Helmi's case at the meeting of the Lloyd George Chapter the next day.

A week later a new place was found for Helmi. Mrs. Bell said it was an ideal place, and while she dollars a week was very little salary, it was not every place she could have the privilege of keeping her baby, and Mrs. Herriott would be very kind to her. Helmi was young and inexperienced, and found her baby a great care. Helmi could mind the two babies, and Mrs. Herriott would do the work.

Old Sam was sorry to part with Helmi and gave her a feather fan, and she came back some—old Sam was glad. Good girl—ally tray—teaches me kid easy—come back! You can see my girl too, and have that chop suey."

Helmi paid her rent at the "North Star," and had three dollars left.

The Herriott home was a six-room bungalow on 147th Street, three blocks from the car line on 121st Street. It was a little house, low-roofed, square, with little pitch to the roof, and high pillars in front much too high for the height of the house, giving one the sensation of being thought of seeing a good getting up him. Mrs. Herriott and Danmy conducted her to the place, Rosie carrying the baby and Danmy helping Helmi with the heavy valises.

"I hope you don't like her," said Rosie, "and then you'll come back. I'll bet her baby cries more than mine, and just when you get little Lil' asleep, her kid will wake up whinin'! Well, anyway, Helmi, you can always come back, and we'll manage none way."

Helmi kissed her two good friends at the back door, but Rosie refused to go until she saw if the lady were at home.

"Maybe she's changed her mind," said Rosie, speaking from her experience with ladies. "Or she got her or something has happened. You can't depend on these women in the West. Ain't that right Dan? They're all right by their desks, either, very good. They always say 'Come back again.' Dan collected for a tailor and said 'I see you're a real man, anything less than five dollars, and when they're stuck for another excuse they peep out of one of the windows and say 'see who it is, and won't be you in.'"

Mrs. Herriott was in and had not changed any else, and so the escort had to go home alone, which they did regretfully.

Helmi found the house in a state of siege. Confusion reigned everywhere. The invader slept in a baby carriage which filled the greater part of the living-room, and when he slept, the room was muffled. The result, mother, who had been conscripted to service, padded about in her bedroom slippers. The telephone bell was stuffed with paper. No one was at

The British custom of serving 4-o'clock tea in business offices is fast "taking on" in Canada. Many Canadian, as well as British-born, executives now order Red Rose Tea for their office, because it is the same quality as the finest English tea. Sold by all grocers, in bright, clean aluminum.

mitted to the house, not even the baker.

There was a little room off the kitchen where Helmi and Lil were to sleep. It had just room enough to take in the rubber-wheeled carriage. "Oh, I will be so glad to have someone to take this old baby off my hands," said Mrs. Herriott frankly. "He spoiled last summer for me, but I don't mean to let him spoil this one. Isn't a baby awful? I hope yours is good. Anyway, I can get out now, and believe me, I am going."

Mrs. Herriott, having shaken off family cares, resumed her place in her little world. She carried and played bridge, and went to the matinee with her friends and came home only when something was over. She was a pretty, plump-faced girl of twenty-three who had the misfortune to be the only child of absent parents. "Maude is not fond of women," her mother often said; "but never mind, she'll take it when she has a house of her own." Young Robert Herriott, who had married with pomp and circumstance at the First Church believed the same thing.

Maude had been in a terrible rage about the coming of the baby, but her mother fondly believed she would be attached to it when it came. "They make their own place, babies do," she said. "Maude will be so fond of it she wouldn't take it when it has two days."

Maude's friends agreed among themselves that they would take it to her when it was two days old.

The baby was now two months old, and the great foundation of mother love which the baby's grandmother had hoped for was still either non-existent or untouched. "She'll take it to me," said Mrs. Herriott, "but I don't know that it would be true of her own."

In a week the siege seemed to be lifted. Helmi had been sitting on the floor, and the baby was now in the cradle. Helmi knew that cats sometimes hiss at their young, but she did not know that it could be true of human beings.

One night, when the Herriotts were going for a drive, Mrs. Herriott wanted to take Helmi, too, and her husband said, "That girl hasn't been out of the house since she came. I said, 'Ask her to come.'"

The use of Miller's Women Powders insures healthy children so far as the mother is concerned. A high mortality among children is traceable to worms. These are the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

May Abandon Geneva
Rumors are revived that League of Nations may move another capital. Rumors that the League of Nations may be transferred to some other European capital were revived recently at Geneva when it was learned that the league had not succeeded in acquiring a site deemed necessary for the proposed league palace.

It appears that the English woman who is proprietor of the villa where league delegates have been housed for years is dissatisfied in her refusal to sell the property. This has given a new impetus to those advocating taking the league out of Geneva and installing it in Vienna or elsewhere.

Canada Comes Second
According to word from New Zealand, that country claims a lead in dairy production with 96.1 per cent of population, Canada, according to the table, ranks second with 40.4 per cent, followed by the Irish Free State with 38.1 per cent. Austria has 28.9 cows per hundred of population.

Human nature's funny. No sooner does a man "get on his feet" financially than he wants to get off them physically.

A reliable antiseptic—Minsal's.

Cancel Grants To Class "B" Fairs

As Federal Aid Withdrawn, Support Should Come From Provincials

Some discussion took place in the House at Ottawa, and criticism offered over the cancellation of federal grants, under the department, to class "B" fairs. Hon. W. R. Motherwell, minister of agriculture, explained that grants had been made to class "B" fairs during the war as a measure. This aid had been discontinued as they were not entitled to federal aid. They should get aid from the provinces. During the past few years, Mr. Motherwell said, he had noticed several provincial governments had increased their grants to class "B" fairs in anticipation of cancellation of aid by the federal government.

"Class 'A' fairs were receiving federal aid, and while only \$500,000 was granted as federal aid before the war, the amount now totalled \$255,000 annually."

A large number of the members took part in the discussion of provincial grants, expressing their opinion that the smaller fairs did as much, if not more, for agriculture generally than the big ones.

Alfred Speakman (U.F.A., Red Deer) believed in the encouragement of educational fairs, with good livestock and agricultural exhibits, in place of those fairs specializing in side shows.

Mr. McLean (Liberal, Montreal) spoke in favor of aid to the smaller fairs in the agricultural districts.

Another Reform In China

Ruler Of Hunan Province Forbids Binding Of Women's Feet

Women of Hunan are to look no longer on tiny bound feet. Marshal Feng Yuhsiang, the revolutionary ruler of the province, has not only prohibited binding the feet of young girls, but also has ordered that the feet of their mothers and grandmothers must be bound from their feet.

This abolition of "tiny feet," which Chinese for generations have considered among women's greatest charms, but which appear as a cruel deformity to most outsiders, will be accomplished by persuasion if possible, but by direct official action if necessary. A propaganda committee is being created in women's meetings, in newspapers and wall posters.

To enforce his edict Marshal Feng has established a "Bureau for the Liberation of the Feet of the Women," whose agents make house to house visits and find are to be penalized. Agents are promised a bounty visits. Heads of households which of \$2.50 for every 100 sets of discarded foot wrappings they turn in, and one month of the campaign brought in more than 25,000 sets.

For Frost Bites and Chills—Chillings come from undue exposure to slash and cold and frost-bite from the key winds of winter. In the treatment of these ailments, the action of Dr. Thomas' Electric Oil, as it counteracts the inflammation and swelling of the tissues, and the oil is prompt and its application is extremely simple.

Late Threshing In Alberta

Estimates That Nearly Thirty Million Bushels Of Grain Threshed In Spring

Alberta's farmers, whose wheat was left in the field unthreshed all winter did not fare badly. In most cases, they made money through the fact that they could not sell their grain until this spring, since wheat from 20 to 25 cents a bushel. A local grain man estimated that nearly 30,000,000 bushels of grain were threshed in Alberta during the last part of the winter and this spring.

DIARRHOEA Was So Bad Child Passed Blood

Mrs. Harry Nesbitt, R. R. No. 2, Sherburne, B. C., writes: "Last fall my little boy took very bad with diarrhea and I knew it was passing blood. I went to our medical case and gave him a dose of

and a little later gave him another dose and half an hour after the second dose he got relief and by the time he had taken the third dose he was like a healthy child."

This wonderful blood complaint remedy has been used for over 20 years; just try only by the T. M. M. Co., Limited, Toronto, Ont.

Little Helps For This Week

"He that hath a pure heart shall receive blessing from the Lord."—Psalm xiv. 4.

O God! the pure alone,
Even in their best confessing,
Can see their own frailties,
And find the perfect blessing.
Yet to each waiting soul,
Speaks in Thy still small voice,
Thou broken vessel made whole.

How does Jesus make men pure? He made Himself one with our human nature that He might heal and bless it through its contact with His divinity. He toiled to atone around His eternal presence. He made it His own. He made it a power which could quicken and restore us; and then by the gift of His Spirit He bound us to it. He ruled us in it, and henceforth Christian humanity became conscious of a Presence before which the unclean spirit cannot but shrink away.

—Canon Liddon.

Afghanistan's Azar is the first male sovereign to have made an undress trip. Margherita of Italy was the first and only Queen to descend in a submarine; she did it off San Remo in 1912.

Cute in a Baby—Awful at Three—and it's Dangerous

by Ruth Brittain

Thrush sucking does look sweet in a baby. It is dangerous to a three-year-old and sometimes it can kill an adult or sixteen! The habit causes an inflammation of the mouth and throat, and it always interferes with digestion. It is a disease which prevents the arms at the elbows, are one of the ways to stop the habit.

Another bad habit—irregularity in bowel and constipation in babies. Give the little response to weak bowels and constipation in babies. Give the little response to weak bowels and constipation in babies. Give the little response to weak bowels and constipation in babies.

One of the commonest complaints of infants is worms, and the most effective remedy for them is Dr. Mother's Worm Expeller. It is a gentle, safe, and effective remedy for worms, and it always interferes with digestion.

Carol: Does your husband gamble? Jo: Not in an objectionable way. He rarely wins any.

ITCHY, PIMPLES
AFFECTED FACEAlso On Neck and Body.
Healed by Cuticura.

"Recess broke out in pimples and affected my face, neck and body. I tried and tried but I was all the time scratching. My face was disfigured, and my clothing was ruined. I was unable to go to school. I was so itchy that I could not get any sleep on account of it. The trouble lasted a couple of months. I began using Cuticura Soap and Cuticura and they afforded relief in about a week. I continued using them and in three weeks I was completely healed." Signed: Miss Rose Whittman, Beaver Harbor, N.S.

Rely on Cuticura Soap and Ointment to keep your skin clear.

PRAYER BOOK REVISION AGAIN MEETS DEFEAT

LONDON.—By a vote of 268 to 220 the House of Commons again rejected the revised prayer book of the Church of England.

The vote, coming after two days' close debate on which the attention of the nation had been focused, recorded a majority almost identical with that in the previous rejection last December, when the vote was 247 to 205.

The revised prayer book after rejection last December was altered by the bishops, and after the approval by the church assembly, was submitted to Parliament.

Again in an appeal issued by the Archbishop of Canterbury, and the Archbishop of York, supporters of the measure were told that the new responsibility laid upon the bishops is very grave and a plea was made "for quietness, for a little patience, and for abstention from any angry or unkindly words."

The speech of Sir Wm. Joyce-Hicks, home secretary, was in the light of the efforts of the opponents of the revision. The minister, a staunch evangelist, who led the opposition last December, declared the House was being asked to "revolve its own decision" and inferred that the church was resisting Parliament's decision. He asserted the book was essentially the same as the one rejected last December.

Lord Hugh Cecil and Premier Baldwin were outstanding among the speakers in favor of the revision.

The premier stated that difficulties must follow any decision, but he believed those which would face the church if the measure was rejected would be infinitely the more formidable.

Mr. Baldwin said he felt an adverse vote would be a blow to the faith of all those in authority in the church for a considerable time to come and give immense impetus to the very forces which he felt were opposed to the new book desired to curb. It would also, he said, hinder the religious progress of the country.

The House of Commons was a denier of gravity as it entered upon the second and final day of the debate.

The aged Archbishop of Canterbury, the Archbishop of York, and the Bishops of London and South-west were prominent among the speakers who looked on from the Peers' Gallery, while the ordinary prayers were again crowded.

Conference a Success

First Annual "Farm Women's Week," Held At Saskatoon.

Saskatoon.—Close to 150 delegates attended the first annual "Farm Women's Week" at the Saskatoon Hotel, Saskatchewan. The conference, arranged by the United Farmers of Canada, Saskatchewan section, in co-operation with the United Farmers of Western Canada, was a most successful venture, and is the first of its kind held in the province and, so far as is known, in Canada. As much of the business of the program concerned only the United Farmers' Organization, some of the sessions were closed to the press and public.

Noted Suffragette Leader Passes Away In London.

LONDON.—Mrs. Pankhurst, noted suffragette leader, died here Thursday morning at the age of 69.

Mrs. Pankhurst, in later years, took up the cudgels against communism, while her daughter Sylvia goes on, more energetically than ever, advocating the teachings of Lenin.

Miss Christabel, the eldest of the two girls, is tremendously interested in religion.

Danish Aviators Killed Copenhagen.—Three Danish aviators were killed after leaping from a naval seaplane which exploded when they were flying over Copenhagen.

The aviators, a pilot and two cadets, leaped from the plane but their parachutes failed to unfold and they fell on the roofs of houses, being killed outright. Their machine crashed in a densely populated area and injured a boy.

A statue of William Shakespeare, cut in glass and over 24 feet high, has been made for a London Park.

W. N. U. 1738

Appeal Was Rejected

Privy Council Gives Decision On Alberta Coal Case

LONDON.—The decision of the Privy Council, judicial committee rejecting Alberta's appeal in the coal mining tax case has the effect of depriving that province of large revenues which it had hoped to collect on production from coal mines. The Privy Council upholds the decision of the Supreme Court of Canada that Alberta mine owners tax act of 1923 which placed a tax on every ton of coal mined in Alberta is ultra vires of the province.

The province's test case was launched against the Caledonian Collieries, Limited. The judgment of the Privy Council states that it is undisputed that though the tax was called a tax on gross revenue, such gross revenue is really an aggregate of the sums received from the sales of coal and is indistinguishable from a tax on every sum received from the sale of coal.

The judicial committee agreed with the judges of the Supreme Court that the tax was not a direct tax. Some attempt had been made in the argument to support the tax on the ground that it was analogous to income tax but it was pointed out that there were marked distinctions between a tax on gross revenue and a tax on income for taxation purposes means gains and profits. There may be considerable gross revenue but no income tax as income tax is in the accepted sense.

The appeal was therefore dismissed.

U.S. Farmers Complain

Say Canadian Competition Is Damaging Factor In Agrarian Development

Seattle.—Canadian competition in grain growing has become a "dangerous factor" in the agrarian development of the United States, says a statement of the U.S. secretary of agriculture, J. C. Lacey, made at the Interstate Commerce Commission farm hearing, Agrarian representatives appeared before the commission recently, arguing the necessity of lower export grain rates.

Supported by voluminous exhibits, Lacey gave a comprehensive comparison of farming conditions between the grain districts of Western Canada and Eastern Washington. He asserted that aid given farmers by Canadian railways and the government was attracting wheat from Washington to Canada.

With cheap land, low taxes, low grain rates and fertilizer, Alberta ranchers can not only raise grain at a cost of several dollars an acre lower than those of Washington, Lacey said, but they can reach both their eastern and western markets at a much less cost.

Lacey said the average cost of wheat in the Canadian grain including everything until the grain was placed at elevators was \$14.70 an acre, whereas in the United States it was \$20.58.

He added that with such a wide spread in their favor the Canadian grain growers are rapidly driving Eastern Washington wheat from the export market.

Searching For Bodies Of Kamloops Victims

Eight Of Twenty-two Have Already Been Recovered

Port Arthur, Ont.—A tug and launch have left here for Lake Huron to conduct a further search for bodies from the steamer Kamloops, which was lost off the Island last December.

The expedition has been organized by Captain H. J. Bryan, of Kingston, brother of Captain Bryan, of the Kamloops, and is financed by him and relatives of other missing ones among the crew of the Kamloops. It is proposed to patrol inland as well as along the shore line. Eight bodies of the 22 on the lost have already been recovered.

Beatty On Trip To England

Quebec.—E. W. Beatty, K.C., president of the Canadian Pacific Railway, and Sir Herbert Holt, president of the Royal Bank of Canada, have sailed for England. While the other side Mr. Beatty will let a contract for a new steamship of the Empire class, to be used on the Pacific Coast routes. It is tentatively arranged that Mr. Beatty will visit Stanley Baldwin, British premier.

India Ready To Renounce War

Washington.—The Government of India has accepted the invitation of the Secretary of State to participate in an original signature in the proposed multi-lateral treaty for the renunciation of war.

Ice Delays Seaplanes

Machines Ready For Survey Of Canals At Port Churchill

Ottawa.—Ice on the small lakes in the vicinity of Port Churchill is holding up the dispatch of the two Canadian Air Force seaplanes which are in readiness to fly to the Hudson's Bay port for the purpose of surveying the break up conditions there.

It was stated at the Department of National Defence that the two planes are at present at Comorant Lake, North of The Pas, and are awaiting favorable conditions before proceeding to their destination. The duty of their pilots will be similar to that which has occupied the Hudson's Straits air patrol last year, to observe the movement of ice out of the Churchill River and through the inlet on the shore of which Canada's Northern port will be constructed.

In a wireless station will be built at Port Churchill, the workmen, equipment and machinery for which will be taken there some time next month.

HARVEST HELP FROM BRITAIN IS SUGGESTION MADE

Report Shows Big Increase

L.C. Department Of Agriculture Announces Gain In Production

Victoria, B.C.—Agricultural production in British Columbia in 1927 is valued at \$76,999,269, the highest sum on record, and an increase of \$5,637,000 over 1926, the Department of Agriculture announces.

Substantial gains were made in livestock, poultry products, dairy products, fashers, hogs, sheep and wool, while decreases were noted in fruits, vegetables and grains.

Imports of agricultural products from other provinces in Canada were valued at \$16,644,793, against \$17,437,350 in 1926, while imports from foreign points increased from \$3,622,011 to \$5,393,041. Exports of agricultural products for the year amounted to \$10,025,735, an increase over the previous year of \$1,617,065, or 19.23 per cent.

Alberta Post Making Interest Payments

Farmers Are Receiving Annual Due On Elevator Deduction

Calgary.—The Alberta Wheat Pool is issuing checks covering the payment of six per cent. interest due on the elevator deductions from the crops of 1924 and 1925. It was stated at the office of the pool.

The total payment amounts to \$87,101.93. In instances where the interest does not total the sum of one dollar, no payment is being made.

The six per cent. interest is paid on a total of \$1,453,284 which was the amount of the pool's indebtedness from the 1924 and 1925 crops.

Is Successful Candidate

Toronto.—Max E. Silver Dowling, lecturer in botany at the University of Alberta, is the successful candidate for the annual scholarship awarded by the Canadian Federation of the University Women's Clubs.

HE DID IT IN ONE

Robt. Bell-Briv, of Powell River, B.C., the first amateur to make a hole in on the Jasper Park Lodge Golf Course. He accomplished it at the fifteenth, which has a name that speaks for itself—the Bad Baby. Incidentally, he is the first player, amateur or professional, to do the final Baby in one.—Canadian National Railways Photograph.

PRESIDENT OF THE L.O.D.E.

Mrs. John A. Stewart, of Perth, Ont., was elected national president of the Imperial Order Daughters of the Empire at the annual meeting in Toronto, this morning.

She succeeded Mrs. M. J. Church, of Toronto, and sister of T. L. Church, M.P., who is retiring from that office after three years of work in the order.

Over Three Hundred Head Sent From Calgary Recently

Montreal.—The first shipment of cattle on the hoof to leave Calgary for over a year arrived in Montreal at the Flat Head stockyards over the lines of the Canadian Pacific Railway, on its way to England. Over 300 head of cattle were in the train of 17 cars averaging 15 animals to a car, with a stockman aboard for the care of every 25 cattle that made the trip direct from Calgary to Montreal.

The shipment is being accompanied by Francis Burns, of Calgary, Arthur Hillard, veterinary surgeon, who supervises the health of the stock from Calgary to Birkenhead, together with a staff of stockmen under Archie MacInnes, foreman.

Will Form Pool

New Westminster, B.C.—Prairie Valley poultry men and women at a meeting here decided to form an egg and poultry pool in British Columbia. A committee was appointed to nominate a committee representing all poultry sections of the province which will draw up a constitution.

Westerners Win Scholarships

Alberta and Saskatchewan Students Will Pursue Technical Studies

Quebec.—Chosen as the most outstanding and valuable member of the Canadian Society of Technical Agriculturalists, Prof. H. M. Nagant, professor of geology and chemistry at the Ontario Agricultural College, of the University of Montreal, was unanimously awarded the fellowship prize at the closing session of the agriculturalists here.

The \$500 scholarship prizes, gift of the T. Eaton Company, were awarded to H. B. Bedford, of Alberta, to study soil bacteriology at McGill University, Montreal, and R. C. Russell, of Saskatchewan, to study plant pathology at Toronto University.

It was officially decided that the convention of the agriculturalists next year will be held at Winnipeg.

BOARD REFUSES APPLICATION OF LIVESTOCK MEN

Ottawa.—The application of the United Grain Growers Limited, of Winnipeg, Man., and other agrarians and livestock organizations, for a West for suspension of the Canadian Pacific Railway tariff, effective June 23, 1927, on livestock shipped from Western Canada to Pacific coast points in the U.S., has been rejected by the Board of Railway Commissioners.

This is the judgment of the board which is issued, together with a minority report, by Hon. Frank Oliver, Commissioner S. J. McLean and C. Lawrence expressed the opinion following a lengthy examination that the application should be refused.

The application of the livestock organizations involved the question whether, under special circumstances and, under special conditions, the application of the tariff to livestock shipments of hogs to specified points in the Pacific coast states of the U.S. from Alberta should be computed on the minimum of 24,000 pounds, or whether there should, in addition to current rates, be a charge on the actual weight in excess of this minimum.

Plan Speaking Tours

Premier King and Hon. R. B. Bennett Will Visit West

Ottawa.—The speaking appointments for the Prime Minister in Western Canada to begin at Regina, though it is known that he will leave Ottawa on July 25. Mr. King will likely address meetings in Winnipeg and Brandon, and possibly other places in Manitoba.

On August 10, the Prime Minister will leave Regina to visit the National Park and between that date and August 16, he will visit several places in the West.

Mr. King will then return direct to Ottawa. He will probably be accompanied by a member of his staff.

Hon. R. B. Bennett has mapped out an intensive speaking tour that will include visits to the Prairie Provinces and Western Canada during the summer months.

Mr. Bennett will leave Ottawa, on June 21, he will leave for La Prairie, Que., where he is to speak on June 23. From Monday, June 25, to the following Saturday he will visit a number of points in Quebec's Eastern townships.

The Conservative leader goes West in July to be in Calgary in time for the stampee, and is scheduled to return to Ottawa, Ont., for a speaking engagement on July 23. A tour of the Maritime is planned for later in the summer.

Forke Will Tour West

Minister Of Immigration To Visit Western Canada Shortly

Ottawa.—Hon. Robert Forke, Minister of Immigration, will visit Western Canada this summer on immigration matters.

Mr. Forke's trip will carry him through to the Pacific Coast. The itinerary of Mr. Forke has not yet been arranged, but the likelihood is that he will leave Ottawa within the next three or four weeks, visiting all the important Western cities. A definite announcement of his program will be available shortly.

Mr. Forke probably will seek provincial co-operation in immigration work as recommended in the report of the parliamentary immigration inquiry presented during the recent session of parliament.

Presented With Diplomas

Quebec.—Dean H. Burton, of MacDonald College, St. Anne de Bellevue, Que., Dean A. H. H. of Alberta University, and L. P. Boy, of Quebec, were presented with diplomas of Bachelor in Agricultural Sciences, by Laval University, at a reception tendered the delegates attending the eighth convention of the Canadian Society of Technical Agriculturalists, by the University. The presentations were made by Mr. Amédée Gauthier, rector of the college.

Death Of W. B. Sifton

Brooklyn, Ont.—In the presence of a large number of friends, William B. Sifton, second son of Sir Clifford Sifton, died at his residence, Assiniboine Lodge, 15 miles west of Assiniboine, Man., on Sunday.

Death was directly traceable to a severe case of cerebral hemorrhage three years ago, there having been no return of the illness at his home here Sunday night.

CHAMPION CHATTER

VOL. 1

Thursday, June 21, 1928.

No. 19

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

EDITORIAL

If you are going to celebrate Father's Day we would suggest that you begin by letting the old boy sleep late. Then he is sure to wake up with a grudge. There will be no hot water for his shave and the Sunday paper which you have let the kids have to keep them quiet will be in a mess. Give him cold fried eggs for breakfast and the day will be utterly ruined.

July 2nd, 1928
Boy oh boy that's going to be big day in Champion.

Hard Luck Stories
Men turn away a dead car show to the woe.

We are very pleased to announce to our customers

that we have been successful in securing the services of one of the best repair men in southern Alberta in the person of G. C. Greenway. "Gordie" has had 12 years experience in the repair business. He will be in charge of that part of our business so you are assured of better service by far than heretofore.

Wild flowers will have to be wilder than they are now to escape destruction by tourists.

We also take pleasure in announcing a reduction in price of \$25.00 on our sweaters. This will be good news to some 13 or 20 customers of ours who had already placed orders.

If you think of Champion as "a high priced town" just remember folks in Carmanagay and Vulcan are telling each other how high prices are there and how low they are here. It's human nature.

Oscar Hagg has placed an order for a 15-hp. Mc-Drz. Tractor, a 16 ft. Combine with swather and pickup.

Their Trouble immediately is the one thing the modern young people must overcome. That is, accomplished. They will be all right.

J. L. Bowman has placed an order for a 16 ft. swather.

Jack Archibald passed his 25th wedding anniversary the other day and when he asked his wife what she wanted for a present she asked him to give her a gold medal.

She was only a poor telephone girl but she kept plugging on.

"Good Equipment Makes a Good Farmer Better"

Local and General

Canada's foreign trade for the month of May showed a substantial increase over that of 1927. Exports increased by some \$9,000,000 and imports by approximately \$19,000,000. Signs of increasing prosperity are evident in every direction.

The provincial tax on coal tonnage has been declared ultra vires by the Privy Council. Premier Brownlee, however, says the tax will be levied in different form to meet the objections of the high court to the former levy.

Painters at work in town are gradually improving appearance of residences and business places. New signs are also making a very nice showing. The "Save the surface and you save all" slogan is evidently getting in its work.

Word received recently from the party going north to the Peace River country indicated their car was shipped from Edmonton to McLennan and had not yet arrived there. The party was proceeding by taxi to Peace River Landing.

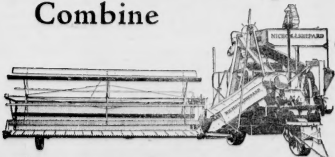

Mr. and Mrs. A. Hopkins left on Wednesday for Spokane, the beginning of a trip by auto with California as the ultimate objective. They will be joined at Spokane by Mr. and Mrs. Fred Clever, who leave here as soon as the roads are in a satisfactory condition.

A very pleasant evening was spent at the home of Mrs. Cowell on Wednesday, the occasion being Mrs. Cowell's birthday. She was the recipient of a number of pretty and useful presents, and the guests spent a splendid evening, games, music and dainty refreshments being contributing factors. Twenty-two friends were present.

A large number of W.I. members intend visiting Vulcan on Saturday, where they are being entertained by the ladies of the Vulcan branch.

We would again urge an effort on the part of both advertisers and contributors of news to get their copy in the office as early in the week as possible.

The Nichols & Shepard Combine

With many new features

The Big 12 Bar Cylinder, the heaviest found in any combine, and the Man Behind the Gun, the greatest combination ever devised for getting the grain from the straw.

Balance—the machine weight, whether the grain tank is full or empty, is equally distributed on all three wheels.

One Man Control—The operator has every control at his finger tips.

Hyatt, Tinker or Ball Bearings at every main bearing point—32 in all.

Armco Ingot Iron—the great rust-resisting metal—in all sheet metal parts.

A Sturdy Hot Riveted Main Frame with big Franch & Hecht wheels that stomp up.

Bridge Truss Construction that will last.

This is the combine that threshes like the famous Red River Special Thresher.

There must be enough news matter set by Thursday noon to run the paper. This week some of the best news items reached the office too late for insertion.

W. M. Duncanson of the Canadian Bank of Commerce staff has been appointed official meteorological observer at Champion and in future regular reports will be published.

Owing to wet weather the intermediate baseball tournament to have been held here on Wednesday was indefinitely postponed.

Remember—July 2nd.

Better Investigate Before Buying

B. M. ROBERTS

It Pays to Buy At Home!

A GOOD TOWN is an unmistakable sign of a prosperous and progressive Community.

It is the centre of your Community life. It gives you better educational facilities.

It supports any movement for the betterment of the Community.

It pays its share of Taxes to build and maintain anything for the welfare of the Community.

And in times of need it helps carry the Community over to better conditions.

We Want Your Trade

Because we carry one of the finest stocks in Southern Alberta.

Because we strive to carry only goods of high quality and dependability.

Because we guarantee the goods we sell and replace or adjust anything found defective.

Because quality considered our prices are fair.

Because our responsibility does not cease after the sale is made. We give you prompt service on any repairs you need.

Because any small saving you make in buying goods of unknown value is more than offset by being able to see what you buy, returning what you don't use, and backed by our guarantee and service.

Think it over.
